

K. Valtchev

Vaginal delineation and occluding device

U.S.S.N. 10/715,104

REMARKS

Specifications have been corrected in order to correspond to the amendments and changes made of the drawings and the claims.

As the Examiner has suggested the phrase "New Sheet" on the drawings Fig. 7 and Fig. 8, have been replaced with the phrase "Replacement Sheet", and the drawings on Fig. 5a-d have been withdrawn and marked as "Withdrawn Sheet"

The status identifier of all claims have been changed as the Examiner has suggested.

According to the information I have, I am convinced that I have submitted the responses on time. The response to the Final rejection was due on or before **February 19, 2008**. I have submitted my response on **February 15, 2008**. My interview with the Examiner was on **February 19, 2008**. The response to the interview was submitted on **March 18, 2008**. The interview summary was mailed to me on **February 27, 2008**, which means, that the response had to be filed on or before **March 27, 2008**, which I did 9 days earlier.

CONCLUSION

In view of the foregoing I believe that the amended specifications, drawings and claims are in condition for allowance.

Favourable action with the allowance of the claims is most earnestly solicited.

May 1, 2008

Respectfully submitted,

Konstantin L. Valtchev, M.D.
